PROFILE

I'm a passionate frontend developer keen on building end-to-end products. Want to apply and enhance my current skills and learn some new. I've harnessed my drive and determination to master the latest technologies. Through dedicated learning and hands-on projects, I've become adept in crafting seamless and engaging web experiences. My toolkit includes HTML, CSS, JavaScript, and I'm well-versed in utilizing frameworks like React to bring dynamic functionalities to life.

SKILLS

Frontend : HTML5, CSS3, SCSS, JavaScript
Frameworks : ReactJS, Bootstrap
Tools : GitHub, Git, Redux, Firebase/Firestore

WORK-EXPERIENCE

SOFTFEAT TECHNOLOGIES

Frontend-Developer

Nov 2022 – present

- Worked with team on contract/project basis with flexible working hours.
- Implemented various features and functionalities using react hooks, custom components, and react router
- Used React, Redux and Sass for creating the project.
- Worked on a few more contract projects and provided support for other running projects in the company

PROJECTS

[Kingsman Shop | Full-Stack E-commerce Website](#)

[GitHub](#)

- Created a full-stack e-commerce website that is able to handle and integrate secure payments, routes, NoSQL database, and OAuth. The goal was to use the project as a boiler-plate for future similar work.
- Allows customers to browse, search, and buy a variety of products from different categories.
- Technology: React, React Router, Redux, Firebase/Firestore, and GraphQL.

[Shubham Chavan | Personal Portfolio](#)

- A glimpse into my web development expertise
- interactive and responsive website, crafted with the latest technologies such as ReactJS, Vanilla JavaScript, RESTful API, CSS, SASS, SCSS, Tailwind, and HTML.
